“ My family lived down the street from Donald and his family all through our school years and before. His family had a big yard and all the kids in the neighborhood liked to play there. I remember we would gather there and play "red light, green light", red rover, and hide and seek until it got too dark to find any one. Other families were the McKenzies, Sandy Condie, My sister Cathy was in the same class as Melvin. Lots of old memories for all of us. Sorry to hear of Donalds passing. Mrs. Whitmore lived right next to our house. Good times in the old neighborhood. Dorothy Haney (Dodi Roof) God bless
