“ Oh how we loved our Uncle Frank! He was a hardworking soul who had such a love for his family and his life. We always enjoyed the stories and memories he shared of his life and of the many times we spent together or the times reminiscing about his children, grandchildren, beautiful Aunt Sissy, and his best buddies. His storytelling was joyful, funny, colorful and detailed! We will miss him. Knowing he will have peace and comfort as he joins those who have passed before him is a blessing.
With love and sympathy to our cousins,
Barb and Steve Lindjord and Family

“ Rip Frank you and Loretta are together again and betting on the horses. I knew them from horse racing in Moses Lake. Very special people. Our thoughts and prayers to the family.

“ *Rip Frank; What a delight you were to visit with Keith and I and Scott every Sunday at the Soap Lake Senior Center. He told us stories of the past; his adventures and accomplishments and about his family.*

He worked on the Third Power House of Grand Coulee Dam at the same time as Keiths Dad, Wally Morehouse, electrician and my step dad, Bill Miller Carpenter Superintendent. He wasn't sure if he knew them but we had that experience in common

.His claim to fame was the construction of the Bavarian Village and Leavenworth development and worked as a contractor on many jobs.

Like the construction cowboys of old Eastern Washington; he had a love for horses; and he 'cowboyed up' to work on several of the Dams constructed on the Columbia River and many construction projects; housing; airports; silos; in Grant Co. back in the '50's.

He always told us he "stayed on the other side of the tracks" I am assuming that is the same side as schools; fire department; hospital; Walmart; PUD and so many places vital to the survival of Ephrata.

*We enjoyed our Sunday visits with you so much;and we were so saddened last Sunday when Scott came to tell us you had departed Heartfelt prayer to your children and families that love you dearly.
Sincerely Bonnie and Keith Morehouse*
