“ When I got back from Nam and out of the army in summer 1969 Keith and I were walking up Cherry st when the light changed to yellow so we took off running to make the light. I was 3 yrs older but we were same height and both very slender. We ran through the light and then took off in a foot race all the way up the long block between 10th and Anaheim. While we were running full out we were laughing our heads off! And it ended in a tie! I spent alot of time with Keith that summer.As a youngster Keith would take apart alarm clocks, clocks, anything mechanical, but couldn't put them back together and our MOM would get upset with him.
